Phone : +4367763491888

Website: rafal.kuka94@gmail.com  
Address: breitenfurter str 91 tür 24

## Qualifications

---

- Strong selftought python
- Strong selftought JavaScript
- Strong with Linux
- Alright Bash skills
- Terminal Ninja
- Vim Enthusiast
- (ongoing) Web dev Bachelors from Openclassrooms
- Fluent in German, Spanish Polish and English

## Interests

---

All things tech have always been a very big focus on my life irrelevant if its hardware or software.

The Nerdyness started out young with my botched pic based playstation 1 hacks and self taught soldering skills which got me started with my love for computers.

I am also a pretty big fan of indie strategy games and real time strategy games.

## References

## Work experience

---

**Torres cell** 2014 — 2016

Software Cellphone repair

Leader of a small Team of technicians and accountants / Technical repair of mobile phones / PR management support in direct contact with the Customer / Hardware repair and Software

**Transcom / Whirlpool** 2016 — 2017

Customer support

Senior consultant (technical support for Whirlpool , Indesit, Ignis etc in German)  
D&G insurance salesman

**Self Employed** 2012 — 2020

Half-time Interpreter / translator

Different types of translations in direct basis with different Companies and Customers. Very often in a business to business basis. Accuracy speed and being professional was very important.

## Casumo

2017 — 2019

Customer Support and Internal Technical support

Customer support Inbound and outbound calls. Low level tech support. AHK expert, automation.

After the main responsibility of the job was over I tirelessly strived to make stuff better by working hand in hand with our dev team to make our backend better(e.g. with user syded JS injections) generate reports with SQL for management and remaining team alike.

## Dimoco

2019 — 2020

Service Integration Manager

Integration of new Clients with the Dimoco API

## Education

---

Full Stack Web Development

2018 — 2020

OpenClassrooms
